Pending Mineral Materials Sale Site Inactive – Additional Information Requested

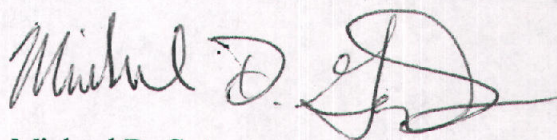

The Pending Negotiated Sale for extraction of mineral materials, sandstone, at the location of a legacy quarry in Dog Valley was received by the Fillmore Field Office, Bureau of Land Management (BLM), on June 24, 2008. The proposed extraction site is located approximately ten miles west of Nephi, Utah and two miles south of State Highway 132, in Section 25 of Township 13 South, Range 02 West. The Bureau of Land Management (BLM) case file number for your Free Use Permit (FUP) is UTU-86555. Please refer to this number in future correspondence.

A field inspection by a member of the Fillmore Field Office staff on September 18, 2012 found no evidence of recent extraction activity. The former two-track access route to the legacy quarry has been reclaimed and is undergoing the revegetation process. There has apparently been no vehicular traffic to the former quarry site in Navajo Sandstone for some time.

Please notify the BLM office in Fillmore in writing about your intentions for this Pending Sale of sandstone. If you are no longer interested in purchase of sandstone from this location, then the BLM will close the case file and request a refund to Ash Grove Cement of any unused cost recovery funds for processing this sale.

If you have any questions, please contact Duane Bays, BLM Fillmore Field Office Natural Resource Specialist, at 435-743-3115, or Jerry Mansfield, BLM Fillmore Field Office Geologist, at 435-743-3125.

Sincerely,

A handwritten signature in dark ink, appearing to read "Michael D. Gates". The signature is fluid and cursive, with a large, stylized "G" at the end.

Michael D. Gates
Field Manager
